The Federal Milk Market Administrator is an excepted service agency under the Schedule A, 213.3113 (f)(4) hiring process. The objective of a Federal Milk Market Administrator's office is to administer the terms and provisions of regulations referred to as a federal milk order. Federal milk orders establish minimum prices that regulated dairy plants and milk handlers must pay Grade A dairy farmers for milk, based on how the milk is used. The milk order requires that these payments be pooled so that dairy farmers under an order are paid an average price for their milk, regardless of how it is used.

### **Primary Duties of the Position:**

- Perform research, analytical, and regulatory work concerned with the economics and marketing of milk and milk products or commodities under the provisions of Federal Milk Marketing Orders.
- Ensure accuracy and timeliness during the pool process to assure proper application of federal order provisions in the pool computation process.
- Gather statistical information and analyze data that reflect a clear understanding of current dairy industry.
- Use specialized analytical, statistical, or econometric software, and other information technologies as needed.

### **Qualification Requirements:**

Applicants must have a bachelor's degree from an accredited college or university with at least 15 semester hours in statistics or in mathematics and statistics combined; or at least 6 semester hours in statistics and 9 additional hours in one of the following: Physical or life science, dairy or food science, or education, or engineering. (Credit towards meeting statistical course requirements may be given for courses in which 50 percent of the course content appears to be statistical methods, e.g., courses that include studies in research methods in psychology or economics such as tests and measurements or business cycles, or courses in methods of processing mass statistical data such as tabulating methods or electronic data processing.)

Applicants who do not have a degree must have the appropriate semester or quarter hours as described above and experience that, when combined with the education, would equal a 4-year course of study. The experience should have equipped the applicant with the necessary skills and knowledge to perform at the grade level to which appointed.

**Evaluation Criteria:**

All applicants who meet the minimum qualifications, to include any specialized experience, will be referred to the selecting official. Before a certificate is issued to the selecting official, your application is reviewed to ensure that you meet all the qualification requirements. A rating will not be used. Applicants eligible for veteran's preference will receive selection priority over non-veterans.

**Note:** If, after reviewing your resume and/or supporting documentation, a determination is made that you have inflated your qualifications and/or experience, you may be found ineligible. Please follow all instructions carefully. Errors or omissions may affect your rating. Providing inaccurate information on Federal documents could be grounds for non-selection or disciplinary action up to including removal from the Federal service.

**Special Requirements:**

- Must be a United States citizen.
- Males born after December 31, 1959, must be registered with the Selective Service.
